1	anonymous	<p>The improvement metrics are very vague. Simply stating that "students shall improve" and then providing very little in terms of tangible metrics is no way to achieve a goal. I would recommend aggregated grade averages and publishing the results of literacy assessments (averages) to better define outcomes. The budget should be spent on staff as much as possible, where it will have the greatest impact on student attainment. The CBE corporate budgets should be cut in favour of directing more funds to the RAM. It is shameful that staffing increased more in facilities, HR, finance, and corporate structures than it did in schools (2025 budget page 14) during a historic education crisis. CBE has a budget of \$1.67B and 146k students. That is \$11.4K per student, with only \$6.5k/student showing up in the WO Mitchell RAM. Where is the other ~\$5k/student going? I commend the staff at WO Mitchell for making do in difficult financial circumstances. More funding to the RAM and autonomy for principals would result in better outcomes than increasing staffing for departments that are far removed from students.</p>
